Conditional interest funds can either receive their earned interest, or it can be allocated to the General fund. If a fund has a conditional interest account, then the fund may receive its own interest at the fund level. The fund's conditional interest account must be an active revenue account, and the conditional interest account must be designated to receive the fund's own interest under the Accounting/Maintenance/Funds area of the software. When posting interest receipts, the fund's conditional interest account can either receive the earned interest, or it can be allocated to the General fund's interest account.
