

OVERVIEW

This checklist is the recommended guide for closing the fiscal year for those who would like to follow a single path through the year end process. It is designed to be a concise step-by-step checklist to use *in conjunction with* the Year End Procedures booklet. Please refer to the Year End Procedures when greater detail on any particular step is needed.

Please Note: The Year End Procedures booklet will be available after installing the year end update disc: From the Windows desktop, click *UAN Tools* → *Version Documentation* → *2026.1*

When using this guide, you *must not* skip around; you must complete steps in the exact order presented. Skipping back and forth through this checklist may result in having to repeat the same steps multiple times.

Certain steps have been flagged with a ☆. The star icon signals that you can take immediate action to gather outside information, and prepare, or organize data before you have reached that step in the checklist. For details, read the year end procedures section referenced in each step with the star icon.

STEPS TO CLOSE THE FISCAL YEAR 2025 (WHEN YOU ARE READY)

- ☐ Confirm whether the list of withholdings should carry over to 2026 for payment. If a message opens that reads 'there is no data to report,' it means there are no remaining unpaid withholdings from wages posted in 2025.
Note: when printing the unpaid withholding report as of 2025 it is proper for it to continue to list withholdings that were deducted from 2025 wages, but already paid to the withholding agencies in the work year 2026 (if any).
- ☐ Post any withholdings that are due for payment before closing the year (Payroll → Transactions → Withholdings Payments). Reminder: if the calendar date is already on or after January 1, you should post the warrant payments while logged into the work year 2026 i.e. you cannot backdate printed warrants.
- ☐ Clear any unpaid withholdings that you paid previously from Accounting instead of Payroll and/or that you should not carry over into 2026. (Payroll → Utilities → Unpaid Withholding Clear).

For details, read Step 4G - Carryover Purchase Orders in the year end procedures.

- ☐ Verify W-2/W-3 and 1099/1096 form information.

For details, read Appendix 2 & 3 in the year end procedures.

Enter corrections before closing 2025. Edits to some of the following forms will not automatically update 2025 W-2 forms if done in the work year 2026 and more time-consuming manual edits will be necessary.

 - If you select ‘Submit through UAN with AFR filing’ then you must fill-in the values in the item table *that apply to your entity*. Population is the only value that is always required for a ‘Complete’ status. If necessary, print and/or Save as PDF files any reports missing from your entity’s archives before closing 2025.
 - ☐ 4G-Carryover Purchase Orders – verify the purchase orders that should carry over into 2026 (if any). Purchase orders carried over will reduce resources available for appropriation in 2026. Before closing the fiscal year 2025, close purchase orders that should not carry over and reduce purchase orders with remaining balances that are in excess of the amount you need to carry over for 2026 payments (whether posted or to be posted). Wait until you are about to close 2025 to mark the checkbox.
 - ☐ 4H-Carryover Withholdings – verify the total amount of withholdings that should carry over for payment in 2026 (if any). Carryover withholdings will reduce resources available for appropriation in 2026. If there are withholdings listed that were already paid (or will be paid) in the work year 2026, it is proper for the software to continue to report them as unpaid withholdings as of 2025. Wait until you are about to close 2025 to mark the acknowledgment checkbox.

Notes to the Annual Financial Statements are required in UAN when filing Regulatory statements

You can include documents (in addition to the Notes) when audit requires or requests them or other supporting documents that you choose to submit. You **cannot** submit separate files. You are required to add all external documents applicable to the entity into UAN for UAN to compress them into the AFR-AOS Backup - which is a single file created during the year end close that you submit by internet or on a disc. You are required to complete all steps prior to the final year end audit submission (AFR-AOS Backup) and UAN must receive it **before the deadline** set by the Auditor of State - financial penalties may be assessed for late filings.

- Close the fiscal year on or after January 1, 2026.
For details, read 'Finish: Close The Year' in the year end procedures.
 - Open the Year End Checklist (General → Maintenance → Year End → Year End Checklist).
 - 4G-Carryover Purchase Orders – review again and when you are ready, checkmark to acknowledge that you understand the effect that any carryover purchase orders will have on the 2026 budget.
 - 4H-Carryover Withholdings – review again and when you are ready, checkmark to acknowledge that you understand the effect that any carryover unpaid withholdings will have on the 2026 budget.
 - Click the Finish (Close the Year) tab and it *should* display a green flag if all prior steps are complete. Note: if the flag is still red and the 'Close 2025' button is tinted gray, then you have not met the minimum technical requirements to close the year. Review the red 'Incomplete' tabs to address unfinished steps.
 - Carefully read the Finish (Close the Year) page. When you are ready to certify the accuracy and completeness of the AFR submission and the entity's responsibilities, checkmark the acknowledgment statement (☑ 'I affirm ...').
 - Final notice: You will be unable to retrieve any 2018 reports from UAN after closing the fiscal year 2025. Before closing 2025, if necessary, print and/or Save as PDF files any reports missing from your entity's archives.
 - Click 'Close 2025' and follow the messages that guide you through the close and three backups: the 2025 Year End and 2026 Year Begin for the entity to retain and the third is in a special format for year end audit submission: AFR-AOS Backup. You have two options for the AFR-AOS Backup:
 - Internet Submission: if you choose this, make sure you have an active internet connection so that it will automatically upload the AFR-AOS Backup.
 - Postal Submission: if you choose this, use a blank disc and follow the message instructions to label the AFR-AOS Backup disc immediately and mail it to the address indicated.

After the AFR-AOS Backup is complete, you will receive a final message that you should read carefully. Click OK and UAN will close automatically.

STEPS AFTER CLOSING THE FISCAL YEAR 2025

- Login to UAN to confirm it is in 2026 (there should be no Work Year or Temporary Mode notice).

- **Meeting Annual Reporting Requirements for the Auditor of State**

Each local government is required to submit its AFR to the Auditor of State within sixty (60) days of the end of the fiscal year. Meeting this requirement for UAN members occurs when the 2025 AFR internet upload (or disc) containing the end-of-year filing data of the government is received by UAN.

- Verify the AFR filing status (General → Maintenance → Year End → AFR-Filing Status). This will open the AOS eServices ‘Customer Log-in’ page where you can confirm the status on the Hinkle System. *For detailed steps on using AOS eServices for this purpose, read the ‘Steps after Closing the Fiscal Year’ section in the year end procedures.*
 - If submitted by internet, check the filing status 3 business days after uploading.
